PROFILE

Software engineer and creative technologist with three years at Cytel and subsequent independent client work. Builds React and TypeScript interfaces, full-stack websites and custom commerce tooling. Combines production C++ experience with hands-on UI/UX design, integrations, deployment and delivery ownership.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, responsive interfaces, GSAP, Three.js.

Full-stack & delivery: Payload CMS, custom integrations, Node.js, Git, CI/CD, custom-server deployment, Azure.

Engineering & design: C++, Python, Figma, UI/UX, automated testing, AI-assisted development.

PROFESSIONAL EXPERIENCE

Freelance Full-stack Designer / Developer & Creative Technologist

Independent practice | June 2025 - Present

- Designed and built five React-based client websites: ALIFA, BZ Fitness, NEXSTEG, Roca Fuels and Adaline; delivered projects through agency handover.

- Built ALIFA's custom e-commerce admin CMS using Payload, implemented custom integrations and handled DevOps and CI/CD on a custom server.

- Used React and TypeScript in client work, with GSAP and Three.js animations across selected websites.

- Developed commerce, catalogue and enquiry experiences; applied agentic AI automation and orchestration to freelance project workflows.

Software Development Engineer (R&D;) | Cytel

June 2022 - June 2025

- Implemented C++ mathematical models for clinical trial studies and contributed to UI development and simulation systems.

- Contributed to migration of legacy C++/C#/XML software to React, C++, JSON and Azure.

- Collaborated with statisticians on simulation features, chart design and user-interface improvements; achieved 90% code coverage in single-arm survival study development.

SELECTED INTERACTIVE PROJECTS

Shroom Sabha: JavaScript festival companion with a Three.js map, programme search, bookmarks and locally stored progress. Archived interactive demo available in portfolio.

Interlace: Browser-based visual instrument with Canvas rendering, interactive controls, saved configurations and clean output windows for live performance.

EDUCATION

B.Tech, Electronics and Computer Engineering | VIT Chennai | 2018 - 2022 | GPA: 8.05

CERTIFICATIONS & LEADERSHIP

Google IT Support Professional Certificate (2022); Security Analyst GOLD, NASSCOM (2021); IBM Cloud Native & Multicloud Applications (2022).

Vice Captain, Dreadnaught Robotics; Creative Head, IEEE Computer Society VIT; Teaching Assistant, VITeach.
